I have done my best to understand my duty in State affairs. I can't endorse Mr. Taylor's course and to vote for Yerkes would be to endorse all the lawlessness of last winter.—J. P. MILLER.

IT'S A SIMPLE STORY.

Our contemporary, "A. G. Benton," is averse to going in, even when the door is locked and barred. It would occur to reasonable men, to men of ordinary intelligence, that the "half-pint story," the "A. G. Benton letter scandal," which the Herald Tribune is guilty of in the first degree, would send forever the mouth of the guilty, yet it does not. Perhaps it is because the Herald Tribune has been off in "Sleepy Hollow" the past two years, asleep, and has not yet learned of his plight condition. So far as that "half-pint" matter is concerned, we need only to remind the "consumer" that it was to prove him and unmitigated liar in his own language, and defend the good name and standing of a young man, against the infamies of this Herald Tribune. If desired the article in question can be reproduced for the asking.

As for the "A. G. Benton" letter, everyone acquainted with the case, knows that it is an offspring of illegitimate parents. The principles being Heber Matthews, of the Herald, and Wm. Holt, of the Beaver Dam Gleaner, secondary or assistant. These gentlemen have been caught in the most infamous conspiracy conceivable by the basest and lowest characters in human form. We caught them in the attempt to slander our other self, private character and defeat him for nomination for the Judgeship which he sought, and have held him up to the public as instruments of Satan to accomplish a purpose, desired by those of their clan. These are facts which Messrs. Matthews and Holt accept as true, being unable to do otherwise. The character guilty of such a crime is presumed to vilify and damn the righteous, hence the conduct of the Herald.

Concerning the matter of procuring the editorial from the Herald of '94, we need to say only, that the article could be found, no where, save in the Herald office and circumstances were such that we were imposed about going ourselves, and sent a very estimable young man, and by the way The Republican would furnish this Herald an editorial contained in The Republican without vilifying and abusing him. Now, really, why should a man rant and rage over such a little frivolous matter, when our only purpose was to inform the public, from a Democratic source, that Jas. P. Miller sold out the People's party in '94 and accomplished the defeat of the Hon. A. B. Montgomery for Congress.

We have no apologies to offer and not a word to retract for anything that The Republican has said or done in the matters of "A. G. Benton," "half-pint story" and the procurement of the editorial from Mr. King's files, charging Jas. P. Miller with bartering and selling out the Populist party. It's a simple story with which the good people are quite well acquainted. It is all a matter of fact accepted and acknowledged to by the guilty Herald.

THE SCRIBE AND OTHER FAIRIES.

The hand organ at this place, edited by "General A. G. Benton" and various other fairies, has been craving for some time about "Court House Ring," "Top Lineum," "Machine Politics," and things like that, clamoring for purity in politics. It will be remembered that The Republican has challenged The Herald Tribune as to the matter of fact after time, for a discussion of politics. We have demanded that it defend the records of its candidates, especially Messrs. Miller and Smith and it absolutely refuses to talk of these things and hoping to get just one more pull at this Herald, challenged it to go into a general clearing of both parties, and when the end came, we would have better management and better government, it there should be any fraud existing in either party. Every thought of an argument—a challenge—was the Herald going and he has never had time to stop long enough to accept anything.

The Herald has had a deal more to say about the top line business than anything else, as a matter of course, but for the sake of argument, we asked it, the Herald, to advise us of one vote that was lost through fraud, and it fled the realm and like Peter, declared "I never knew you, get thee behind me Tom!"

behind me Tom! and as for you, Jas. P., I can't defend you, that T. F. Crowder letter published in last week's REPUBLICAN seals my pen into say nothingness, therefore, gentlemen, I can't defend any of you."

We do not blame Mr. "Benton" for this wise course, but he ought to defend his party in its convention, or else shut his head about other folks. We have charged the Herald Tribune with having been in the "combine" that defamed Mr. Rowan for County Judge with a Populist. It was asked to explain the matter for the benefit of Mr. Rowan and his friends and it sulked as the opossum and would not even show its false teeth. The Herald Tribune stated last week that it did everything in its power to educate the voter for the primary, it stated that 2,500 educational ballots were published and that the ballot was published on the editorial page two weeks next preceding the election and to our surprise this Herald Tribune did not deny any part of our argument. We have asserted that not a single vote was lost through fraud and the Herald Tribune accepts it unconditionally.

Now, since the Herald Tribune is so anxious for an investigation of matters political here in Ohio county, it will have an opportunity, as for the top line, it will remain right where the people put it, and November 5 will advise this Herald Tribune that "A. G. Benton's" have no place in politics. Will the Herald dare to explain why the Democratic machine did not call a primary, or a precinct convention? Why did the machine call a mass convention in Judge Miller's home to slaughter a true Democrat with that list of March Populist Orators? That convention was a cut and dried affair—everything was slated and it worked like a charm. That "combine" formed between Miller and Smith did just what it was chartered to do. If Mr. Smith had desired a Democrat nominated it was in his power to have it, so since he had the thing in his "vest-pocket," there is plenty of explaining for Mr. Smith and the Herald, but when they go into it, the "damned good looking" should be closed before venturing in print.

To make a long story short, the Herald's editor has nothing about which to talk, he can't defend his party platform, neither the condition nor the party's record, hence he was forced into the "top line" boog-a-boog, thinking that he had the winning card—he has broken his fool neck on that, and is now called upon to defend the actions of his own party in convention, or in allowing Mr. Smith to dictate the party's course. Silliness, weakness and diluted ignorance and the most insolent bigotry, have marked every forward step of the Herald. These are facts, kind reader, submitted without question from any source.

NOTHING IS LEFT TO CHANCE.

When the fact had been made known that the jury was composed of 21 Democrats and 3 Republicans, The Republican deemed it wise to advise the public, and did so without assailing the character of any man, or passing any unfavorable comment on any citizen of the county. The Republican simply reviewed the actions of the Jury Commission in this "game of chance" business, which is directed in Kentucky by some god, invariably in favor of the Democratic party. At the last election there were 3,251 Republicans who voted for Wm. McKinley, and 2,889 Democrats who voted for Wm. J. Bryan. Instead of 21 Democrats and 3 Republicans constituting the recent jury, it should have been composed of 14 Republicans and 10 Democrats, according to justice and ordinary rules of chance, but, alas! and alack, here in Kentucky nothing is left to chance.

When the contest board was drawn to try the contested election for Governor in 1900, this game of chance gave birth to 10 ill-fated partisan Democrats, who were already pledged to turn out victory, while only one Republican was drawn. This was purely a matter of supposed chance. These men held that no election had been held in Kentucky, therefore, as the courts were Democratic, from the Circuit to the Appellate, they would thus restore the crown of State Executive upon the Democratic party, and the courts would hold it legal. As a matter of fact things went thus and Governor Taylor, who had a clear majority of 2,383 votes, was dethroned and driven from the State, while \$100,000 was appropriated by this irresponsible legislature, "to hang Taylor and damn the Republican party." This was done right here in Kentucky while the people stood in their terror and amazement, wondering if such things could be in a civilized land of culture and refined people. While this was going on and after it had been accomplished, the Herald Tribune and the Associated Press, were most zealous in their defense of the whole coture of criminals and criminal procedure.

The selection of this gubernatorial contest board may have been a matter of chance, but the evidence in the case certainly does not concur in the assumption. Here we have an example of political trickery in the legislature. We elect a member of that

body this fall. Mr. M. J. Cox is the Democratic candidate and he sincerely trusts that there would be no breach of genteel manliness in asking Mr. Cox if he indorses the actions of the last legislature in overthrowing civil government. Mr. Cox, the question is yours. Do you indorse it?

Not satisfied with having robbed these men of their offices, these same fellows, who are before the people as Democrats, asking the people to make them their county officials, clamored for the execution of Powers and endorsed the selection of twelve Democrats to try him at the bar, and the rulings of a non-judicial Judge, virtually rendering the verdict in the case and yet these fair faced, "no politics" it boys" are pleading for the public to forget their conduct, forgive their short-comings, look over the inflammatory paintings flourished in the recent campaign—the Beckham procession—blot out the legislative records of Thomas Jefferson Smith, excuse Judge Miller's indictment against every man that voted for Mr. Yerkes, as an "outlaw," endorser of lawlessness and assassination, these things are asked in the name of Democracy and in the face of the contest, the persecution of Caleb Powers and the overthrow of civil, social and judicial equity.

We have charged this procedure as being foreign to Americanism, the most foul and polluted deeds of the anarchist, bigotry and intolerance, pure and simple. We have said nothing disrespectful of any gentleman. We have brought no charges but that can be substantiated by truth. The Republican said nothing derogatory of any member of the jury recently empaneled, but simply put before the public the actual work of the commission as it stood 21 to 3 and no man disputes it. For doing this and nothing more, as our readers will bear us witness, the Herald, generally known as "A. G. Benton," has this to say, in part, about your humble servant, gentle reader:

Some time ago the weekly individuals who edited political records for the machine newspaper in Hartford, devoted a column of abuse to Democratic lawlessness. It claimed to have discovered that a majority of the jury men in a recent trial of court were Democrats in politics. It is not unusual, however, for a man who holds his own office, and with the vindictive politics to accuse every official of the kind.

It is this gentleman, this author of anonymous and criminal letters, this defender of official force and fraud, had desired that the public be enlightened, he should have challenged our statements and thus proven to the public that he wanted to see the fair thing done. There is nothing in this sort of newspaper work and a gentleman ought to have more respect for his duty to the public. Here we have set forth the facts in the case, this Herald excuses and dismisses all, save his usual tirade of idiotic foolishness.

THAT TWO WEEK'S PAY BILL.

We have at different times called the attention of the laboring men of this county—especially the coal miners—to the actions and conduct of Mr. T. J. Smith, when he represented Ohio county in the legislature of '94. We desire again to call the attention of our friends—the laboring men—to the fact that we are now in possession of the House Journal of '94, which records Mr. Smith's vote on the "Two Week's Pay Bill." We also called Mr. Smith's attention to this fact last week again. Gentlemen on trial, brothers in the struggle of life against corporations of oppressing the laborers, let us reason together.

In 1894 a bill was introduced in the Kentucky Legislature to the effect that coal diggers and other laborers and employees of corporations should work a period of eight hours which was to constitute one day's work, at the end of the 12th day these hardy laborers were to be paid according to this bill. According to rules governing the passages of laws, they are to be read and voted on the third time, before they can be published. The time came for the third reading of the laboring man's law, but before it could be done, a majority of the assembly should vote in favor of its reading, the yeas and nays were called for on this bill and Mr. T. J. Smith, the present Democratic candidate for Clerk voted against the third reading and killed the bill so that no copy is preserved in the House Journal of '94.

Do we have your attention, laboring man? Keep right along. The record of Mr. Smith's vote against you, your interest and the interest of your wife and babes was published some time since in The Republican, or a synopsis of his voting, for which Mr. Smith promised us, (in his own language) "a damned good beating." We consider it our duty, as a public servant, to apprise you of this fact, not thinking of eliciting from the would be Clerk, any such intimidating threats, in fact, caring nothing whatever for them, as for that matter, but since we have only advised you of this fact and are to be exterminated with the coal diggers of this country and cannot understand why Mr. Smith is against them and the fact that he voted against their "Two Week's Pay Bill" is astonishing to reasonable men. Mr. Smith did vote against the miner because he is not your equal, in your own estimation? Certainly not this, for a more liberal, fraternal, generous, kind-hearted fellow you seldom ever see. Then what was your motive Mr. Smith? Laboring men watch for the answer, it will appear in these columns whenever it is given.

The Republican State Central Committee decided a very important question, at its meeting the 17th inst., which is of vast importance to the party in the State. A motion was offered by Maj. A. T. Wood to dismiss the present county committee of Jefferson county without charges preferred, empowering the State Central Committee to appoint a committee of 15 men, who should have charge of the party in Jefferson county. The committee wisely voted the question down. Had it carried it would have been a dangerous precedent that would have eventually buried the party in disgrace forever. Had this precedent been established, the State Central Committee could have at pleasure dismissed any county committee without cause or provocation. When this motion was voted down another was submitted and carried which ought to adjust matters to the satisfaction of all factions. The State Central Committee appointed five reputable Republicans outside of any and all factions to confer with the same number of other gentlemen appointed by the county committee of Jefferson county to direct the convention, which is to be held there to-morrow. This is a fair proposition and should meet the hearty approbation of every Republican and we sincerely trust that this compromise committee will conduct the convention so fairly that the rabid lying mugwump and demagogue can find no fault therewith.

The Republican party offers the county a ticket composed of young men of the highest type of Kentucky manhood. They are Republicans in faith because they believe in the principles. They have, every one, come from the farm and are friends of the laboring man. The candidate for Judge has no Fourth of March oration to read and gag him, he is not a "wish-a-whisky" politician, but a straight-forward party patriot, firmly imbued with the spirit of Republicanism. The candidate for Clerk is the poor man's friend, he has no ball and chain clung to his limbs, no manacles to "string-halter" him. He is clear of '94 legislative records and is not burdened to death with office holding. He is not rich, but a poor laboring man. The candidate for Sheriff has nothing to account for like other people we might mention. As for the other members of the Republican ticket they are head and shoulders above anything the Gobelet-Democracy have offered.

A clever gentleman called at the Herald office the other day and asked to see an issue of the "Combine candidate's output." When asked his reason, said: "Well, I just wanted to see if you were putting out a blank paper. I understand you want argue a point, nor defend your party's platform, nor their conduct and character, I therefore, had a desire to see myself, and the Herald had a fit of 'madden inebriety.'"

Deafness Cannot be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflated with a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. Tragedy in Rowan. Morehead, Aug. 20.—Harvey Moore, former Marshal of Morehead, and brother of the present Marshal, James Moore, shot and instantly killed Finn Tolliver, aged sixty-five years. Moore escaped to the woods. He shot at his wife a few moments before he killed Tolliver. Tolliver had stabbed Howard Moore, Harvey's brother, on the Fourth of July, and the feeling between the two men was bitter.

GOOD ADVICE

To Republicans all Over the County—Rebuke Miller and Smith.

August 21.—A revival meeting has been going on at this place for several days, conducted by Rev. C. J. Kelly. While the interest has not been so good, we hope lasting good has been done.

Mrs. Campbell, daughter and two sons and Mr. John Crowder, of Rosine, attended church here Sunday night. Mr. James Leisner is on the sick list.

Well, such a majority you never heard of, as we are going to give the Republicans this fall, for you know it has been said that the "mystery and brains" were in the Democrat party, and it must be true, and to deny it would never do so let them have it: we have the voters and of course when they allowed Judge Miller to get his big foot on their necks, that he would choke them to death. So Tom Smith and his army record and the two weeks pay bill, that he voted against, and the Judge voting the Republican ticket so long, when he says he knew he was doing wrong all the time, then when he did come out he branded the Republicans as murderers and assassins, so we don't know what they will resort to next, to help kill themselves. So come on boys, and help bury them on the 5th of November. We will bury them to death that we cannot hear them weep. N. P.

Chinese Leper Isolated.

A Chinaman who has a well-developed case of leprosy has been found in St. Louis, and is now in the custody of the health department, the officers of which are trying to determine what shall be done with the patient. The Chinaman, Dong Gong, has been engaged in the laundry business at 4815 Easton Avenue, and the case was discovered last week by Dr. M. F. Engman, when the Chinaman applied at the St. Louis polyclinic, Lucas and Jefferson Avenues, for treatment for what he supposed to be a skin disease. The physician diagnosed the case as leprosy at once, and turned the patient over to Dr. Fallier, 3953 Park Avenue. Dr. Fallier is the pathologist of the skin department of the polyclinic, and his examination of the Chinaman confirmed the diagnosis made by Dr. Engman. The attention of Dr. G. A. Jordan, chief dispensary physician for the city, was at once called to the matter, and the Chinaman was taken into custody, and has been isolated ever since.

Dr. Fallier stated that in his examination of the Chinaman he discovered two lepra bacilli in the nasal secretions of the leper. "This is sufficient," he said, "to establish without a doubt Dr. Engman's diagnosis of leprosy. The patient's cheeks and forehead are badly broken out, while on each side of his nose and on his chin are patches of eruption. He has eruptions on his right arm and in places about his body. It is a peculiarity of the disease that the first symptoms may appear years before the skin eruptions follow. This man states that he has resided in St. Louis for ten years, and that he came direct here from China. It is quite possible that he was afflicted with leprosy prior to coming to this country, and that the disease has been working in his system in its peculiar manner during his entire residence in St. Louis. He has been bothered with skin eruptions for the past five or six months."—St. Louis Globe-Democrat.

ECZEMA'S

ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema in any form is a tormenting, and burning at times almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Scrubs, washes and other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I have suffered from Tetters on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much distress. Your Doctors said the Tetters had progressed too far to be cured, and they would do nothing for me. I took only three bottles of S. S. S. and was completely cured. I am now strong and I have never since had any trouble."—Mrs. E. B. JACKSON, 1414 Meier St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear. S. S. S. cures Tetters, Breyer's Itch, Eczema, Scalds, Salt Rheum and all skin diseases due to a poisonous condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strict confidence.

Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma had disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
